INFM 736 (Information Management Experience) Exemption Request

INFM 736 (Information Management Experience) is a required MIM course designed to provide you with the knowledge, skills, and experiences you will need to be a successful, high-impact information professional. Specifically, upon successful completion of this course you will:

- Understand the nature of high-status information careers and be able to articulate, evaluate, and provide feedback on professional goals and actionable professional development plans that are consistent with that understanding.
- Understand the nature of learning and professional development in dynamic technological and organizational environments and be able to find, work with, and be an effective mentor.
- Understand the nature of expertise and thought-leadership and be able to identify and respond to actionable opportunities for influence in organizational settings

Through the readings, discussion, and activities of this course you will develop the knowledge and skills you will need to both advance your career and and contribute substantially to the success of the organizations you are part of. (For more details, see the Sample INFM 736 Syllabus, Schedule, and Reading List).

However, if you have 2 or more years of MIM-relevant, full time work experience you may request exemption from this requirement. MIM-relevant work experience (which will be evaluated on a case-by-case basis) refers to work that involves information management related expertise, mentoring, learning, and active leadership. Experience working with information technology, services or resources is necessary, but may not be sufficient to meet this criteria.

If granted, exemption from INFM 736 allows you to substitute another 3 credit MIM relevant course for this requirement.
