

COLLEGE OF
INFORMATION

SPRING 2025 COMMENCEMENT

FRIDAY, MAY 23 • 8AM
XFINITY CENTER
UNIVERSITY OF MARYLAND

LETTER FROM THE DEAN

Dear INFO graduates,

Congratulations, Class of 2025!

Today, we celebrate a room full of changemakers—those who harness information and technology to solve problems and improve lives. Some of you will focus on individuals, others on society, but every level of impact matters. Now is the time to dream big and act boldly.

At the College of Information (INFO), our mission is clear: We use information to create opportunity, ensure equity, and drive progress for social, economic, and environmental good. These values have never been more important.

But above all, we value fearlessness—the courage to do what’s right, uplift communities, and empower others. When challenges arise (and they will), lean on the lessons you’ve learned here and the alumni beside you.

This graduation isn’t just an ending—it’s the beginning of your fearless journey. The world needs your ideas, your action, and your courage. We’re counting on you.

Go fearlessly forward—and make your mark on the world.

Sincerely,

Dr. Keith Marzullo
Dean & Professor
UMD College of Information

ORDER OF CEREMONIES

Faculty Processional

Welcome and Introductions

Dean Keith Marzullo

Commencement Address

Maureen Sullivan

Conferral of Doctoral Degrees

Doctoral Speaker

Rie Kamikubo

Conferral of Graduate Degrees

Graduate Student Speaker

Etana Laing, MLIS

Undergraduate Student Speaker

Joseph Rohan Kettish, InfoSci

Conferral of Undergraduate Degrees

Closing Remarks

Dean Keith Marzullo

Recessional

KEYNOTE SPEAKER

Maureen Sullivan is a leader and educator in the library and information professions. Her career has included serving as the human resources administrator in the libraries at the University of Maryland and Yale University. She was a consultant and trainer with the Association of Research Libraries and among the first to establish a consulting practice focused on the improvement of information organizations and the development of strategic leaders in the professions. She has served as a consultant to numerous organizations on strategic planning; the redesign of work; and the creation of more effective organizational systems and cultures. She has designed and led numerous leadership development programs. Maureen served as the 1998-1999 president of the Association of College

and Research Libraries and as the 2012-2013 president of the American Library Association. She served as a consultant to The Aspen Institute on their major project that resulted in the report, *Rising to the Challenge: Re-Envisioning Public Libraries*. She holds a Bachelor of Arts degree and a Master of Library Science degree from the University of Maryland. She currently serves as a member of the College of Information's iLEAD Council and the Master of Library & Information Science Advisory Board.

STUDENT SPEAKERS

Doctoral Student Speaker: Rie Kamikubo

Raised in San Diego, Rie has also lived in Tokyo and Pittsburgh before moving to Maryland to pursue her Ph.D., where she studied human-centered technology at the intersection of AI and accessibility. Her research centers on expanding access and agency for people and communities, and has been published in premier human-computer interaction venues. Rie is deeply grateful to everyone who helped make this milestone possible and shaped her journey into teaching and research.

Master's Student Speaker: Etana Laing

Etana Laing is an MLIS student at the University of Maryland-College Park and a library associate at Bowie State University. Etana is one of the two Freedom to Read Foundation's 2024 Conable Scholars and the recipient of this year's Joint Conference of Librarians of Color and SAGE scholarship. She also serves as the MLIS representative for the Dean's Graduate Student Advisory Council. Outside of academia, she runs Revolutionary Reads, a book club for Black women, femmes, and people with lived experience of misogynoir. Etana is also a proud alum of the first degree granting HBCU, Lincoln University of Pennsylvania.

STUDENT SPEAKERS

Undergraduate Student Speaker: Joseph Rohan Kettish

Originally from Leesburg, VA, Rohan is graduating with a degree in Information Science and minors in Cybersecurity and Military Leadership. During his time at Maryland, he served on the Leadership Council for Public Leadership Scholars, commanded the Terrapin Battalion as Command Sergeant Major for Army ROTC, and engaged in the App Development Club as a Club Mentor. Academically, he is a member of both Phi Kappa Phi and Alpha Lambda Delta honor societies and completed four years of internships at ManTech International and

Amazon Web Services. Post-graduation, he will join Amazon Web Services as an Associate Cloud Consultant in the National Security Division and commission into the U.S. Army Reserves as a Second Lieutenant. Rohan thanks his mentors, friends, and family, especially his mother, father, and brothers, Anju, Tige, and Michael, for their unwavering support and inspiration. His mission is to pioneer the field of cyberspace and advance technologies that protect rather than threaten, with the ultimate goal of leading AWS's National Security Division and serving in strategic command positions that drive change on a global scale. He hopes to prove that one person's dedication to service and innovation can change our world for the better.

CLASS OF 2024-2025

Doctor of Philosophy in Information Studies (PhD)

Mohammad Ali (2025)

*Computational Framing Analysis: Proposing and Applying an
Unsupervised Entity-Centric Semantic Relations Approach*

Advisor: Naeemul Hassan

Celia Chen (2025)

*Stethoscopes to #SelfCare: The Transformation of Expertise Dynamics
in Digital Environments*

Advisor: Jen Golbeck

Pramod Chundury (2025)

*Designing Multimodal Touchscreen Interactions for Accessible Data
Visualization Supporting Blind Users*

Advisor: Jonathan Lazar

Sigfried Gold (2024)

*Value Sets for the Analysis of Real-World Patient Data: Problems,
Theory, and Solutions*

Advisor: Wayne Lutters

Rie Kamikubo (2024)

Including Disability in Datasets and AI Development

Advisor: Hernisa Kacorri

Marianna Martindale (2024)

Understanding and Mitigating Misleading Machine Translations

Advisor: Marine Carpuat

Amanda Stein (2024)

Three Essays on Quantum Technology Applications

Advisor: Ping Wang

Yuhang Zhou (2025)

*Evolving Language Patterns on the Web: Community Influence, Model
Adaptation and Bias Mitigation*

Advisor: Wei Ai

CLASS OF 2024-2025

| Master of Professional Studies in Data Journalism

The Data Journalism master's degree, offered jointly by UMD's INFO and Merrill Colleges, trains students to merge journalism with data science through hands-on experience, expert faculty, and a capstone with industry partners.

Jasper Drew Evans
Paul Williamson Kiefer
Pablo Gerardo Suarez

| Master of Professional Studies in Game, Entertainment, and Media Analytics (GEM)

GEM trains students to apply data science to entertainment industries while addressing ethical, privacy, and sociotechnical considerations in media design and deployment.

Michaela Junti Davy
Hrday Gopalakrishnan Kowdley
Paris Lison Lane
Jason Patroklos Mandilaris
Matthew Alexander Melada

CLASS OF 2024-2025

Master of Science in Human-Computer Interaction (HCIM)

HCIM prepares students to design, evaluate, and implement user-centered technologies that are accessible, usable, and impactful across diverse communities.
